MG Car Club lapel pin (small - limited quantity)	-	-	2.00

MG MG

General Meeting

There were 7 MGB's and 2 MGA's in the parking lot

Jimmy started the meeting at 8:22 and 21 were present (there was a bit of a delay for another group in our room)

Materials from NAPA wer handed out and catalogs were made available, the NAPA man was ill and unable to attend

An order blank was passed around to sign-up for regalia to ordered Camping trip was postponed on account of weather, it will be rescheduled WELCOME NEW MEMBERS:

Don & Lynn Perschall, '58 MGA 1500 Barbara Eckert, 71 & 72 B Fred Mayer, 72 Triumph

Plantation Tour was discussed, see details in this newsletter General discussions followed

Also, Mike Delacerda is now the owner of a 1964 MG 1100!

CALENDAR OF EVENTS FOR 1988

APR	23	Plantation Tour (Overnight)
APR	26	GENERAL MEETING
APR	28 to MAY 1 N	Road Atlanta, Contact Mike Gore, A.H.Club 764-2396
MAY	7	Carb Clinic by Moss Motors at Jimmy's house(7pm)
MAY	14	A.H. Club Road Tour & Lunch Call Mike Loden
MAY	21	MG Club Crawfish Picnic
MAY	31	GENERAL MEETING
JUN	11	PICNIC & CLASSIC CARS IN BUSH, LOUISIANA
JUN	??	Jackson MS, British Car Day

OUR NEXT GENERAL MEETING WILL BE AT 7:30 ON APRIL 26th AT SHONEY'S , 3410 WILLIAMS BLVD, KENNER. Y'ALL COME!

NEWS REPORT

April 10 - City Park Picnic

The day was fine for being out in the sun. Many car clubs were represented by some fine cars and members.

I got there about 10:00 am and left at 12:00. There were about 20 cars there when I left and I understood that over 100 cars attended later on during the day. There were Model A's, T's, Mustangs, Metropolitans, Corvetts, Buick's, Chevy's and many many others.

The British sector was represented by Jaguars, MGT-D-F-A-B-BGT, etc. The members that attended were Mike Lewis, Mike Cenac, Jimmy Bruno, Rodger Talley, Leon Tsai, Joe Tiemann, Barbara Eckert, Tom Snook and I'm sure a few I don't know about.

It was a great time. If you attended, you know, if you didn't make it you don't know, but don't miss it next year.

Jimmy

Valve adjustment is probably one of the most frequently overlooked tune-up procedures. The correct valve clearances are important since they drastically affect the performance of your engine. If not adjusted properly , the symptoms are a rough idle and a loss of power at running speeds.

First, remove the valve cover by undoing the two nuts on top of it and lifting it off. Leave the nuts and their washers right in the cover and put it aside. Now remove the spark plugs. This makes the engine easier to turn when opening and closing the valves. This is a good time to check the condition of the spark plugs, or to change that leaking valve cover gasket.

Adjust each of the eight(8) rocker arms so that the clearance between them and their respective valve stems are at the proper clearance (MGA and MGB clearance is .015 inches, cold). Start with the number one rocker(the one closest to the fan). Number eight valve must be fully opened... Its rocker arm must be pressing down as far as it will go(to open and close the valves, turn the engine over by putting the car in gear and rolling the care backford or forward, on MGA's the handcrank can be used). Check the clearance of the number one rocker with the correct leaf of a feeler gauge. The gauge should just slip smoothly between the rocker and the valve stem without binding or play. If the clearance is incorrect, loosen the locknut on the rocker arm. Now set the proper clearance by turning the rocker adjuster screw. When the clearance is correct, re-tighten the locknut. Now adjust the clearance of the remaining seven rockers in the following sequence:

Adjust No.3	Rocker with	No.6	valve	fully	depressed
5		4			
2		7			
8		1			
6		3			
4		5			
7		2			

When all eight of the valve rockers have been adjusted, refit the spark plugs and the valve cover. Do resist the urge to start the engine with the valve cover off as you will shoot oil all over the engine compartment and yourself.

That was easy wasn't it? Fortunately valves do not go out of adjustment quickly. By adjusting the valves regularly, you are almost sure to catch a misadjusted valve before it can hurt either itself or the output of your MG's engine.
